Tech watch

Ago Ezoolim-Ela

Application developer

Java · Spring Boot · React · MySQL · Cisco networking

PROFILE

With a Bachelor's in Computer Science (IAI-TOGO), I build complete applications, from **Java / Spring Boot** back-ends to **React** interfaces, and take them all the way to production: my STEA software is **used every day by a company in Lomé**. **Cisco CCNA 1 & 2** certified, I also bring a solid understanding of networks.

EXPERIENCE

STEА — Logistics management and stock tracking Jul. – Sep. 2026

STEА Trans Euro Afrika SARL, Lomé ● **In production since August 2026**
Design, development and deployment

- **24 business modules** (items, warehouses, orders, deliveries, stock counts, accounting, statistics...) for **8 user roles**, with permissions and an audit log.
- Spring Boot / MySQL REST API: **173 endpoints** and **141 automated tests**.
- Windows desktop application (Electron + React): **29 releases** shipped through automatic updates.

Stack: Java 17 · Spring Boot · MySQL · JWT · React · Tailwind CSS · Electron

App: github.com/Ezoolim-Ela/stea-desktop

PROJECTS

Rental management application

Java · SQL Server · MVC

Managing properties, rental contracts and rent payments (academic project).

Dynamic web platform

PHP · MySQL · HTML/CSS

A site with a database, user authentication and an administration back-office for content.

Secured network architecture

Cisco Packet Tracer

A multi-site company network simulated and configured: dynamic routing, VLAN segmentation, access control lists.

EDUCATION

Bachelor's in Computer Science

Awarded 2026

IAI-TOGO, Lomé · Software Engineering & Information Systems

Java and MVC architecture, relational databases, web development, algorithms, programming (Python, C), networks.
